

HORSE SHOW TODAY FOR STATE BANKERS

High Grade Stock Will Be Exhibited at McDonnell Riding Academy This Afternoon

PUBLIC INVITED TO ATTEND

Astral King, World's Champion Saddle Horse, Owned by Mrs. W. L. Lewis Will Be In Ring.

The bankers and their wives, who are in attendance at the bankers' convention will be in attendance at the horse show at McDonnell Riding Academy, 1836 South Boulder at 4 o'clock today.

Thirty-four saddle horses will be exhibited, including Astral King, the world's champion saddle horse owned by Mrs. W. L. Lewis, and will be exhibited by her. F. E. Mance, chairman of the board of directors of the Tulsa National Bank, will exhibit his famous horse, J. H. McDonnell, president National Bank of Commerce will also exhibit his "high school" horse, Major Alice I. Niles. W. L. Lewis and several other horse lovers will also ride in the show ring.

A local band will furnish music for the show, which will last about one hour.

While this entertainment was planned primarily for the benefit of the visiting bankers, anyone interested in fine horses is invited to attend. There will be no admission fees.

PRICES ADVANCE ON ALL COMMODITIES IN APRIL

Wholesale prices for all commodities advanced one per cent during the month of April, according to the figures of Dun's review, which seem to confirm the statement recently made by the United States department of labor.

The number of commodities advancing from week to week has been in excess of the number of declines through the entire month of April. Dun's review shows, on March 1 the index number for wholesale prices for all commodities was 6.9 per cent under the high level of October 1. On April 1, it was 5.7 per cent under the October 1 figure, and on May 1, only 4.7 per cent below it.

The belief that prices have been stabilized has obtained widespread acceptance in newspapers and trade magazines, that reflect various shades of opinion. The federal reserve board in a statement concerning business conditions issued to the press on May 6, commented on the price situation as follows:

"Possibly the most conspicuous feature of the business situation is found in the fact that prices have apparently been somewhat stabilized. Marked declines are still reported here and there in some special lines, but from nearly all districts it is reported that the recent concern concerning prices has been mitigated and that business men now expect that existing levels of prices will be substantially maintained for some time to come."

Right Spirit.
Mrs. Bertrand French, society leader and war worker, told in Paris a story about a soldier.

"All disfigured soldiers," she said, "should have the spirit of an lad I saw in a hospital at Chateau Thierry. His face was a white mass of bandages and I said to him gently:

"You poor, poor boy!"

"Don't pity me, ma'am," said the soldier. "Pity my buddies over there, who got hit where it ain't a gain' to show!"

"Then," I said, "you don't mind being disfigured?"

"Disfigured?" said the soldier. "I ain't disfigured. I'm decorated!"

Use Cuticura to Keep Your Hair from Falling

How many times have barbers given this advice to men who are losing their hair because of dandruff and scalp irritation? At night rub Cuticura Ointment into the scalp. Next morning shampoo with Cuticura Soap and hot water. A clean, healthy scalp means good hair.

Cuticura Talcum is an antiseptic, prophylactic, soothing dusting powder of delicate, fascinating fragrance. Is everywhere.

TAKES OUT THE KINKS

Plough's HAIR DRESSING

Colored folks may easily have straight, soft, shiny hair by simply applying Plough's Hair Dressing and in a short time all your kinks, snarls, ugly, curly hair becomes soft, shiny, smooth, straight and shiny. Only Plough's Hair Dressing deeply perfumed, in large green cans (more for your money than any other hair dressing).

School Teachers Having Harder Time to Get Married This Year But No One Can Find a Reason

Very few school teachers are resigning their positions with the foreseen intention of venturing out on the sometimes mounting marital seas.

Last year throughout the session of the legislature, bills were introduced faster than ever before in the school experience," said E. R. Oberhauer, superintendent of schools. "This year there have been fewer than 4 or 5 bills.

Mr. Oberhauer ascertained his bills did not come to the meetings before they got to the way. He wouldn't be asked on what his opinion was concerning the reason of affairs this year.

"They are," he said. "No teacher would risk such a chance to break it off again. It is such an unprecedented event."

With the minimum living wage now equivalent to that which was formerly the average for a stenographer with three years' experience, it is easy to discern the difficulties ahead, says Miss Louise McMaster, employment secretary for the nation board of the Young Women's Christian association, in speaking of the opportunities open at present to the women workers.

"Educational and employment agencies have a task in hand in convincing girls of the importance of finishing their training. So long as the employer can argue that he is not getting the service he is asked to pay for, so much harder will be the task of securing even living wages for girls who work."

Girardeau left school without finding their business courses and during the war are now entering the field with an inflated idea of their own commercial value. They should finish their training.

On the other hand, experienced girls who have been drawing very high salaries are rigidly unwilling to accept the smaller remunerations offered by business salaries when it is less than their proficiency should demand.

Thus far the transfer of women from war to peace industries has been carried on smoothly, and the latest reports show, even disregarding the ever-present shortage of domestic workers, a greater number

would buy Lower California.

WASHINGTON, May 20.—Wage increases affecting upwards of 150,000 textile operatives in New England and other northern states were proposed in a resolution today by Senator Ashurst of Arizona, democrat, which was referred without action to the foreign relations committee.

IN THE SPRING-TIME

NY one knows enough to carry an umbrella when it rains, but the wise

one is he who carries one when it is only cloudy. Any

one will send for a doctor when he gets bedfast, but the wiser one is he who

adopts proper measures be-

fore his ills become serious.

During a hard winter or the

following spring one feels

rundown, tired out, weak and

nervous. Probably you have

suffered from cold or influenza which has left you thin,

weak and pale. This is the

time to put your system in

order. It is the time for

house-cleaning.

A good, old-fashioned alter-

native and temperance tonic is one made of wild

roots and barks without the

use of alcohol, and called Dr.

Pierce's Golden Medical Dis-

covery, in tablet or liquid

form. This is nature's tonic

which restores the tone of

the stomach, activity of the

liver and steadiness to the

nerves, strengthening the

whole system. Send Dr.

Pierce, Buffalo, N. Y., 10c

for trial package Tablets.

Oklahoma City, Okla.—My husband

has used Dr. Pierce's Golden Medical

Discovery for lung trouble.

Three bottles did him lots of good. I can freely

recommend Dr. Pierce's Golden Medi-

cal Discovery to anybody suffering with

lung trouble. There is no doubt it is a

great medicine and will give relief.

Mrs. J. Monroe,

THERE IS NO SHORTAGE OF WORK FOR WOMEN

Miss McMaster Says There Are More Jobs Than There Are Qualified Applicants

of opportunities for women than qualified applicants to fill them. This is especially true of the higher grades of clerical work."

HELD FOR GRAND JURY ON CHARGE OF TRANSPORTING

Parkings to Be Eliminated, Adding 20 Feet of Paving to Street to Accommodate Traffic.

Edward Lutz, charged with introducing opium into Oklahoma, waived arraignment and preliminary hearing before J. H. Wilkins, United States commissioner, and was committed to jail under bond of \$1,000 for investigation of the case by the federal grand jury.

Lutz was arrested in Newton county last Friday while driving an automobile loaded with 200 half-handsful of whisky. The liquor was seized by the arresting officers.

Members of the U. S. Revenue Bureau, Denver, and federal enforcement officers, and the car held for confiscation by the federal court.

SEWER ESTIMATES FOR WEST TULSA APPROVED

West Tulsa sewers in district No. 101, with approximately 143,000 feet, according to estimates made by C. E. Engle, city engineer, at the regular session of the commissioners.

The estimate was approved, and it was recommended that the work be advertised and construction started at once.

These sewers will fill a long-felt need in west Tulsa because of the law that character of the ground

permits no sewage discharge.

On Sunday owing to the half dozen churches located in this vicinity, cars are parked in solid rows on either side of the street, sometimes obstructing traffic for half a day at a time.

An increase in the usual rate of paving was estimated by City Engineer Wyss, to meet with the demands of the property owners for immediate action. Plans will be submitted at commissioners meeting Friday, and the work will be undertaken immediately.

Six Thousand Strike.

PHILADELPHIA, May 20.—Six thousand employees of the merchant shipbuilding corporation whose plant is at Harrison, Pa., on the Delaware river, went on strike today. The walkout is a protest against uncertainty and delay in settling labor disputes at the yard.

Because of the unusually congested traffic along this street, coupled with the narrow street and scores of automobiles usually parked on either side, it is hazardous and sometimes impossible to drive clear from Third to Sixth streets along South Boulder street. The city ordinance permitting the parking of automobiles on one side of this street only, is disregarded, making it utterly impossible for the fire department to traverse this section even in an emergency.
